

My first term experience in Redemption College, Zaria

I want to start by thanking you for giving me the opportunity to write this essay about my experience during this term. At this point of time I will not forget to let you know my name. I'm Ayuba Ibrahim, and I'm a commercial student in SSS2. My target is to study Banking and Finance in the future (in higher institution).

My experience of the school during this term is that from the beginning to the end I was very happy. The reason I'm saying this is that the school has well trained and qualified teachers. They can teach well with good and creative explanations which will enable the students to understand things much better. I also want to tell you that I am satisfied with the discipline of the school because the way students behave is absolutely good. My mingling with other students has helped me to meet some good characters. The school organizes different sports for everybody.

I would like to give thanks to my Accounting and Mathematics teachers, and also to my English, Economics and Commerce teachers. Why? Because they taught me the concept of these subjects, thereby enabling me to improve my skills and learn a lot of things I didn't know before. Other subjects like Geography and Biology are also well understood. But Civic Education, Insurance and Fishery are the subjects I have difficulties with because they are new subjects I have never come across before.

Finally, I have to give thanks to God Almighty for helping me to improve academically and to let me learn things I have never known in my life. In fact, I see improvement in my studies. I will still add more grease to my elbows and focus mainly on my studies so that I will come out with flying colours. I will not disappoint my sponsors, nor will I disappoint my school and my hostel matron. Thanks.

AYUBA IBRAHIM, November 2012
