

My first term experience at Redemption College

My name is Jeremiah Andrawus, and I'm an indigene of Yelwan Pegi, Ikara LGA, Kaduna State. The things I have observed during my first term are very fantastic to me. Most especially the educational aspect: The school I am attending is a very good school. In this school I have learnt many things such as speaking good English and how to mingle with students from different states and different tribes. Everybody is very disciplined and the teachers are hard working, and we play many games like football, running, etc. In fact, from the bottom of my heart I surely appreciate what the sponsors of my scholarship are doing for me.

The environment of the school is very comfortable, protected and well cleaned. I also like the way I'm interacting with the other students that visit the school together with me. We read together, play together and do other things together. We are living a very comfortable and peaceful life in the school.

Concerning the food, I don't know what more to say than thank you. Every day, I have three square meals, and I know that for some people, it's very difficult to have three square meals in a day. For all this, I am very grateful, and Glory be to God.

At the end of this report, I also want to say that all my needs are being satisfied. I am forever grateful for everything you are doing for me so that I can learn and educate myself. My prayer is always that may the Lord strengthen, encourage and bless this organization, and may he open new ways for them. I also pray that may God give me understanding and perseverance so that all the people who helped me will be very proud of me. Thank you.

JEREMIAH ANDRAWUS, November 2012
