

## **My first term experience**

I give thanks to God Almighty for making us to be among the living. I also give thanks to him for giving me the opportunity to be among the scholarship students. I give thanks to Najude Pioneer School and the Swiss friends of NPS for helping me to be what I am today because without you I would not have been like this.

I am very happy to introduce my little experience to you about my new school because this is my first term in SSS (Senior Secondary School) and the first term in an environment like this.

I am very happy to be a student of Redemption College Zaria because of the good nature of the school. My first day in the school was as if I had suddenly fallen deaf because the students are of different languages. They use the English language to communicate with each other so by that time it was difficult for me to communicate with them because I was not used to it. But as time went on I started having confidence in speaking it until I became used to it. I am so happy for that. The school has a nice management and qualified teachers. The teachers are friendly to their students and teach with understandable explanations. During the term, I have benefited a lot in all the subjects, most especially in mathematics. Before, it used to be difficult for me but now I've learnt the simple way of understanding it. I am so happy for this and for other benefits.

Concerning the activities of the school, they are very nice. When it comes to games, it is very interesting because the school likes games and I too like it, especially playing football. It is played 30 minutes every Friday after closing and I always participate there because I like it so much. In terms of cleanliness, the school is very hygienic, and that is one of the things I like in my life. And in the hostel, where we live, it is also always in a hygienic condition, which is why I like to stay there.
