## SECONDARY SCHOOL AGREEMENT

DATE: ..... Admission Number: .....

Name of student: ..... Name of parent: .....

This document is an agreement between the school management and the student and his or her parents. According to the school rules and regulations, no pupil is forced to continue his or her education after he or she has graduated from primary 6. This decision has to be taken by the pupil only. For some students, the basic education received in classes 1 to 6 is a satisfactory educational background which will help them to improve their lives even if they marry or drop out of school due to some other reasons. They know the value of education and will make sure that their own children also receive a good education. For other students with higher ambitions, primary education is not enough.

However, in case a student has taken the decision to continue and to enter secondary school, he has to complete all six years of secondary school. He or she is not allowed to drop out of school after JSS I or SSS II, for example, nor is he or she allowed to marry during this time. These are the conditions of entering the secondary school section of NPS. By signing this document, the student and the parents pledge to act according to these rules. If any of them willfully break this agreement, appropriate measures will be taken by the school management.

This document has to be signed together with the Secondary School Admission Form of NPS. With their signature, the parents and the student agree with all the other rules and regulations concerning the secondary school section of NPS.

The parents/guardians and the student hereby solemnly declare that they fully understood and accepted the agreement mentioned in this document.

Mother: ..... Father: .....

Student: ..... Witness: .....

The Principal and the Secretary of NPS testify with their signatures that the above agreement has been duly interpreted to the parents/guardians and to the student, and that they fully understood the implications of their signature.
